

## Paper plate goat

### Supplies you will need:

- 2 paper plates
- brown paint
- paintbrush
- brown tissue paper
- scissors
- black card paper
- googly eyes
- black marker
- stapler
- glue

### **Alternatively you can use**

Coloured pens, pencils, crayons

White paper

### Directions:

- 1 Fold in the sides of your paper plate to resemble a goat face.  
From the other plate cut the ears and horns for your goat
2. Paint your goat face and the tops of the ears with brown paint and let them dry. Or you can colour your goat using your pens/pencils/crayons, or leave it white if you prefer to.

3. Glue brown tissue paper squares on the bottom rim of the paper plate goat face to make his beard. (You could also paint this a different colour, or skip this step all together,) Once the tissue paper has dried enough, cut slits all along the tissue paper to define the beard.
4. Use a stapler to attach the ears and the horns to the paper plate goat face.

5. Cut a nose out of your black card paper and glue it onto your face. Finish your billy goat by gluing on two large googly eyes and drawing a mouth with your black marker.
